Work Experience

The R3DM, San Francisco, CA **September 2014 - present**

Contract engineer focusing on Javascript. Built out automation solutions for clients using Node.js on Amazon Web Services using messaging queues such as iron.io. Built out sites using React.js and developed a Flux implementation called thundercats.js
http://r3dm.com

Hacker Coding Academy, San Francisco, CA **February 2014 - August 2014**

Lead instructor for a Full-Stack Javascript Vocational school. Helped develop a curriculum using javascript only. This allows students to focus on learning more concepts instead of language trivia.

Stealth Health, Berkeley, CA **March 2013 - June 2013**

Developed software for interpreting data from radar sensor. Sensor produced data at millisecond granularity. Researched and implemented time series models - Moving Average, Spectral Analysis and Threshold Models. Python, Pandas, Numpy and Scikit-learn.

Education

MongoDB University, *M101JS: MongoDB for Node.js Developers* **March 2015**

https://s3.amazonaws.com/edu-cert.10gen.com/downloads/f470d15d2ee84b8c87630debed70cba4/Certificate.pdf

Worcester Polytechnic Institute, Worcester, MA **September 2008 – June 2012**

Bachelor's of Science, Computer Science
Concentration in Machine Learning

Open Source Experience

temp° **July 2015**
Developed a Web, Android, iOS hybrid app in Javascript. Using React.js and Cordova this app functions on 3 major platforms. Working with a designer for the initial concept and layout.
