HARRY MORENO

SOFTWARE ENGINEER

morenoh149@gmail.com (646) 696 1475 http://harrymoreno.com

Software Engineer passionate about building software that helps and entertains users. Using whatever tool is best. I have worked as a web application developer and am currently working on Mobile apps and Full stack Javascript.

SKILLS

JAVASCRIPT REACT.JS REACT NATIVE MONGODB

RUBY ON RAILS JAVA ANDROID NODE.JS AMAZON WEB SERVICES

EMPLOYMENT

Mobile and Backend Javascript Engineer, **Sous** **2015-09 — 2015-11**

Built a productivity app for restaurants in two months. Learned React Native and Meteor while building a scalable prototype deployed to Modulus. Team size was 6 people.

- Contributed fixes to https://github.com/stringhq/base64-string-s3 and https://github.com/react-native-fellowship/react-native-navbar

Backend Engineer, **The R3DM** **2014-09 — 2015-09**

Founding engineer focusing on Javascript. Built out automation solutions for clients using Node.js on Amazon Web Services using messaging queues such as iron.io. Built out sites using React.js and became core contributor to KeystoneJS CMS.

Lead Instructor, **Hacker Coding Academy** **2014-02 — 2014-08**

Helped develop a curriculum using javascript only. This allows students to focus on learning more concepts instead of language trivia.

EDUCATION

MongoDB University **2015 — 2015**

Worcester Polytechinc Institue **2008 — 2012**

SERVICE

, **React Native Contacts** **2015 — 2015**

Wrote a React-Native Native Module bridging the Android Contacts api to Javascript. This makes a user's addressbook contacts available to Javascript code. Built using Java and Android APIs.

Organizer, **React Native NYC Meetup** **2015 — 2016**

Help coordinate that event resources are available such as venue and food. Lead technical discussions if no one volunteers.

- "Tips on Developing in React Native" http://rn-harry-moreno-171215.surge.sh

Author, **Rabin Karp Search NPM Module** **2015 — 2016**

Implementation of rabin-karp fingerprinting and a rolling hash algorithm using javascript. Performed benchmarks and found that using indexOf() repeatedly is faster than this algorithm implementation.

Developer, **temp°** **2015 — 2015**

Developed a Web, Android, iOS hybrid app in Javascript. Using React.js and Cordova this app functions on 3 major platforms. Working with a designer for the initial concept and layout.

- https://play.google.com/store/apps/details?id=com.r3dm.temp

Website Revamp, **Society of Hispanic Professional Engineers** **2015 — 2015**

Migrated an old Wordpress site to a new Node, Keystone.js, MongoDB site. We elicited requirements from the non-profit's leadership. Was given a design as a photo and expected to realize it as a website in CSS and Javascript. Deployed onto Heroku.

- https://github.com/r3dm/shpe-sfba

Contributor, **KeystoneJS** **2014 — 2016**

CMS built in Node.js and React.js. Submit small to medium sized fixes to bugs. Review pull requests concerning OSX support, yeoman generator, documentation, MongoDB or AWS S3 file uploading.
